

AERIA

speaker cloth

description

virtually 100% acoustic transparency

23 standard colors

custom colors available

resistant to oil, water, alcohol, dust, soil, heat, humidity, mildew, bacteria

suitable for humid environments

inherently FR and UV resistant

unique, patented fiber

proprietary construction

strong, durable, stable knit construction

fluor finish

meets international standards

specifications

content	100% PVC fiber
width	60-61"
weight	350 g/smtr
sft/lyd	14.5
minimum	5 yds
rolls	17 yds
color	23 standard
custom color	min 80 lyds; small upcharge
printing	minimum by project
finish	aqueous emulsion of polymers
FR	M1; class A, ASTM-E84
acoustic	NFS 31 003, ISO 354
absorbency	125-2000 Hz : $\alpha \leq 0.10$ 2000-5000 Hz : $0.10 \leq \alpha \leq 0.20$
origin	France
shipping	UPS Global Expedited or airfreight
maintenance	vacuum
cleaning	soap/water; drycleaning
